

QA Level 2 Award in the

Principles of Infection Prevention and Control (RQF)

Course Overview

The **QA Level 2 Award in the Principles of Infection Prevention and Control (RQF)** is a regulated and nationally recognised qualification that has been specifically designed for those who have a specific responsibility in infection prevention and control within their job role, such as in the NHS or other healthcare environments.

During this half day course, candidates will develop a greater understanding of the principles of infection prevention and control, including: roles and responsibilities, personal hygiene, policies and procedures and ways to minimise the risk of infection in a Health Care setting.

Upon successful completion, candidates will be equipped with the necessary skills and knowledge needed to implement infection prevention and control into their workplace.

What's Covered?

- Importance of infection prevention and control
- Roles and responsibilities
- Policies and procedures for infection prevention and control within organisations, including:
 - Codes of practice
 - Standards
 - Guidelines
- Minimising the risk of infection in a Health Care setting
- Personal protective equipment (PPE)
- Personal hygiene
- Hand washing procedures
